

# IEMA Webinar

## Career Guidance and Development within the Sustainability Sector

Transforming the world  
to sustainability

## Overview to the Webinar

### Aim and Objectives

- To provide information on how IEMA can help support your career development with a focus on the importance and role of Continuing Professional Development (CPD).
- To provide case study examples of individuals working within the Sustainability Sector and advice on what has helped their career development.
- To provide career support and guidance to individuals working within and/or looking to gain employment within the sustainability sector and to gain an insight into the current employment market status.

Transforming the world  
to sustainability
